

# **Complete list of the Orbx freeware and payware airports with runway description and airport elevation (March 30th 2021 edition). The list does not include the partner companies.**

**Note 1:** Airports in black are in the Global Freeware packs: Larry Isenor and Neil Hill have worked a lot on those FSX airports to add a human presence and aircrafts. Airports in green are found in the Orbxdirect freeware section. Airports in blue are the payware airports.

**Note 2:** In the runway description, any runway that is 2000 ft or below, or 60 feet wide or less, is in orange. Turf runways are in green. Water aerodrome are written with “water” in blue. The airport elevation is in red.

**Note 3:** There are several airports included in the older Orbx regions on the west coast of USA that are not shown here. So the list is not perfect, but it does help the flight simmer. For the rest of the planet, the list is pretty accurate.

## **American Samoa**

NTSU, Pago Pago Intl. 10000 x 150 / asphalt / 05-23 / 32 and 3800 x 100 / asphalt / 08-26 / 8

## **Argentina**

SABE - Jorge Newbery Aeroparque, Buenos Aires. 6890 x 131 / asphalt / 13-31 / 18  
SAWO – Aeroclub Ushuaia. 5299 x 161 / asphalt / 16-34 / 20  
SAWH, Malvinas Argentinas. 9186 x 147 / asphalt / 07-25 / 102

## **Australia**
